

AASTHA KUMAR

Senior Developer | React | TypeScript | Node.js

Cramlington, UK | aasthakumar2909@gmail.com | +44 7586 209339 | Open to Visa Sponsorship

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 8 years of experience designing and delivering scalable, high-performance web applications across frontend and backend systems. Deep expertise in React, TypeScript, and Node.js, with a strong record of leading end-to-end feature development, driving UI architecture decisions, and mentoring engineering teams in enterprise environments.

Experienced in building AI-driven user interfaces, modern framework adoption (Next.js), and cloud-based deployments. Currently seeking Senior or Lead Engineer roles in the UK, with openness to remote or hybrid arrangements and visa sponsorship.

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, Next.js, Redux, Zustand, Tailwind CSS, Framer Motion
- **Backend:** Node.js, Express, REST API design and development
- **Architecture:** Scalable frontend systems, API design, performance optimisation, Atomic Design
- **DevOps & Tooling:** CI/CD (Jenkins, GitHub Actions), GitHub, VS Code, IntelliJ
- **Testing:** Cypress
- **Collaboration:** Figma, Jira, Confluence, Agile methodologies

PROFESSIONAL EXPERIENCE

Senior Developer | Sage Group PLC, Newcastle, UK

Feb 2025 – Present

- Led the design and development of the Product Catalogue Admin UI using React, Redux, and Node.js, materially improving internal workflow efficiency across product teams.
- Architected and built Sage AI Hub in React and TypeScript, enabling consistent, scalable integration of AI-driven features across the company's product portfolio.
- Delivered Sage Nexus, an internal developer framework built on Next.js for constructing governed, scalable AI solutions aligned with enterprise standards.
- Mentored three junior engineers through structured code reviews, pairing sessions, and technical guidance, reducing onboarding time and raising overall team code quality.
- Led frontend delivery for the Assisted Sales platform, collaborating with product managers, designers, and backend engineers to define and implement a scalable UI architecture.

React Developer | Sage Group PLC, Newcastle, UK

Jan 2023 – Jan 2025

- Led frontend development for enterprise applications serving tens of thousands of users, focusing on performance, reliability, and accessibility.
- Owned the full redesign and revamp of Sage.com using React and Atomic Design principles, resulting in improved component consistency and long-term maintainability.

- Established shared component standards and design system conventions adopted across multiple product teams.
- Mentored junior developers and conducted regular code reviews, fostering engineering best practices within the team.

Software Engineer II | Adobe, Noida, India

Feb 2021 – Dec 2023

- Led the migration from Angular to React across multiple internal services, improving rendering performance and reducing long-term maintenance overhead.
- Built a cross-platform desktop application using React and Electron to manage build distribution, streamlining internal release processes.
- Developed an analytics dashboard to monitor and visualise build failure trends, significantly reducing mean time to detection and resolution.
- Designed and implemented an internal tool for product configuration management, replacing a manual process and improving configuration accuracy.

Software Engineer | Adobe, Noida, India

Jul 2018 – Jan 2021

- Developed user interface features for Adobe Creative Cloud using React and the MEAN stack, contributing to features used by millions of end users.
- Built and maintained REST APIs using Node.js and Express, supporting frontend product requirements across multiple teams.
- Delivered end-to-end features within Agile sprint cycles, consistently meeting release deadlines while maintaining code quality standards.
- Created internal testing tools to automate and streamline product installation workflows, reducing manual QA effort.

EDUCATION

Bachelor of Technology, Computer Science

2014 – 2018

North Cap University, Gurugram, India
